Saturday April 6th	**9:30 AM**	**10:45 AM**	**11U (9U A) / 13U Community**

Process

Skill Evaluations - All players will take part in the Skill Evaluations. The purpose is to evaluate athletic abilities and skill aptitude with fundamental baseball skills in the 4 main baseball categories of hitting, fielding, catching & throwing. This will provide baseline for our Evaluation team to use when making decisions on team creations. Some additional skills such as pitching, catching, time/speed trials, arm stregth or throwing velocity may be evaluated and used as additional info, but does not fall into the baseline categories that are required for the evaluations.

All players that have indicated their intention to play for our community level teams, will be assigned a group for the evaluation sessions. Selected Coaches will be announced for the team(s) prior to the sessions. After the evaluation sessions, teams will be posted to our website along with further information regarding practice information.
